SKILLS GAINED DURING BOOKING HOLDINGS INTERNSHIP ★

- Snowflake SQL
- Snowflake Snowpark
- Python
- PySpark
- Graphite
- Grafana
- Data profiling
- Data observability
- Data quality monitoring
- DAM / schema discovery
- Swagger UI
- Airflow DAGs / workflow orchestration
- BDX data assets
- BDX handler development
- Graphite metric publishing
- Grafana
- GitLab
- DVS checks
- dbt (basic understanding)
- Jupyter Notebook

ABOUT ME

- A Computer Science and Engineering student at Sri Krishna College of Engineering and Technology, Coimbatore at present working as a data engineering intern at **booking holdings india coe.**
- Enthusiastic about full stack development. Other domains of interest include design thinking, problem solving.
- Accolades and experience in various hackathons and coding.
- Working on Platforms like Leetcode, HackerRank, Hacker Earth, Coding Ninjas.
- An optimistic individual about tech industry who is ready for challenges with a positive mindset.
- A cross-cultural person who loves interacting with people from different cultural and geographical backgrounds.
- Served as Leader/mentor during schooling.
- Active Member in Cryosat CSE Department Club, SKCET.
- My hobbies and passion include playing piano(pursuing grade 8) ,Baking cakes and pastries(running instagram account page for selling -Sahasram bakes), painting , Playing Badminton, Making Resin Products, Teaching, Organizing stuffs.

AWARDS/ACHIEVEMENTS

- Ideafest(Winners)
- SIH2023(Finalist)
- PSG itech Hackfest 2023,
- Texathon 2.0(Finalist)
- Ignite 2023-Project Expo Participation
- Smart Agrathon(Prilimes)
- Karnataka Police Hackathon(Finalist)
- Zenith(Participation)
- Techathon(Participation)
- Amazon Wow(Happening)
- Myntra (Participation)
- Women Code to Win(Participation)
- RiseUp With Service Now

CERTIFICATIONS

- UI Path Automation Certification
- Infosys SpringBoard Courses
- Introduction to Cloud Architecture in Vm Ware
- Kotlin (Google)
- Python(Kaggle)
- Aws Cloud Foundation(AWS Academy)
- MongoDB and Documentation
- High School Topper Certificates
- AI Developer Essentials(Google_Cloud)
- SheCodes Runner-certificate

CERTIFICATES/LINKS

[Certificates](#)

PROJECTS

- **c360 data profiling**: This project builds a daily attribute-level profiling framework for C360 events to detect missing or broken data early by measuring total count, null count, distinct count, and completeness percentage for each attribute, event, version, and day. It discovers attributes from DAM and Snowflake, computes the metrics in Snowflake/Snowpark, publishes them to Graphite, and shows them in Grafana, with ongoing work on developing future scops. **[booking.com intern]**
- **Online Bill Payment Website** using React js - In this website the user can pay all bills with various methods like upi,cards,netbanking etc.,
- **Traffic flow Optimization**- Created a project utilizing Raspberry Pi, Arduino, camera, YOLO for object detection and used ML algorithms to train these models, aimed at controlling traffic signals to manage and optimize traffic flow.- **[Ideafest Winner]**
- **Law Advisor/Smart Law Suggestion System**- It is a website that suggests you the laws based on the users suggestions.
- **FrontEnd Projects**: *ChessBoard, *Landing Page, *Payment Page, *Simple Portfolio, *Calculator.
- **Logistics Management System, JotDown -Note taking website**: A fullstack project using React js,Mysql and Springboot.
